Project Overview

Hiring Heatmap is an analytics platform that visualizes real-time hiring demand, skill trends, and company recruitment patterns. This project delivers the end-to-end data analytics pipeline—from mock dataset creation to segmentation modelling, predictive LTV and investor-ready insights.

Key Outcomes

- Fully implemented analytics pipeline with actionable insights
- Product-aligned segmentation and LTV prediction model
- Data-driven feature roadmap and investor storytelling
- Executive dashboards for hiring trends and product usage
